

PRAY AND ACT FOR PEACE

Healer of our every ill

We come to you in the name of the people of the United States who do not have health care.

We come to you with the realization that solving this problem is tearing our country, our communities and perhaps even our congregations and relationships apart.

We thank you for the thousands of medical caregivers in our congregations, for the time and energy they've devoted to learning healing skills.

Great Physician, we ask for
Healing of our fears, which are too deep for us to hear your words of compassion;
Healing of our hearts, which are too small for us to share our resources justly; and
Healing of our words, which we speak too quickly to first listen sympathetically.

Nurse us
To trust in you,
To act in kindness and
To speak loving truth.

We ask for strengthen and wisdom for those making decisions about health care in the United States.

We ask for continued sustenance for those already providing health care to people without insurance.

We ask for healing of our ill and hurting sisters and brothers around the world.

Lover of our neighbors near and far
Heal us, heal our country,
Show us your way to the perfect health only you can give.
Amen.
