

The human race is a single being  
Created from one jewel  
If one member is struck  
All must feel the blow  
Only someone who cares  
for the pain of others  
Can truly be called human

—Saadi, circa 1200-1291

There will never be peace  
unless there is peace among  
religions. We must try to convince leaders  
to use only the weapons of love and understanding.

I must see myself in you and you must see yourself in me. Sincere and faithful prayer is transforming prayer. Jesus, through his prayer, transformed the world. We need to pray and be patient and do it constantly. Weapons have never brought people together. Problems are solved at the tables, not the battlefield.
